TS 25x100 WP for magnificent astronomical binoculars with 25x magnification and 100mm objective lenses (!). It is characterized by a metal construction and mechanics that surpasses all binoculars of similar design and size, which guarantees long life and resistance to transport, and individual focus regulation in each eyepiece and a large depth of focus allows you to easily get a very good picture sharpness and great comfort of observation. Removal of the inner tube equal to 18 mm and the possibility of extending the eyecups ensures comfort of observation also for those who wear glasses. The TS 25x100 WP binoculars are the next version of the LE, with improved tightness and with 1.25 "thread in spectacles allowing the installation of 1.25" astronomical filters (polarizing, contrasting, nebulosity). The set includes an elegant suitcase for storing and transporting binoculars. Technical parameters

- Lens diameter: 100 mm
- Zoom: 25x
- Exit pupil: 4 mm
- Lens construction: 6 elements in 4 groups
- Construction of prisms: porropryzmatyczna
- Material of glass elements: optical glass BaK-4
- Field of view: 2.5 ° (44 m / 1000 m)
- Minimum distance of observation: 25 meters
- Removing the exit pupils: 18 mm
- The scope of adjustment of the spacing of pupils: 60 - 74 mm
- The possibility of using astronomical filters: YES, 1.25 "threads with glasses
- Anti-reflective layers: FMC (all surfaces covered with layers)
- Adjusting the focus: individually in each eyepiece, +/- 4 diopters
- Water resistance: YES, O-rings + N2 (nitrogen)
- Weight: 4900 g (8.1 kg with a suitcase)

Usage astronomy scenery birds hunting planes Warranty 2 years Warning! This device focuses a lot of light. Looking directly at the sun through this device can result in partial or complete loss of vision.
