

Universal binoculars used for nature purposes, tourist as well as day-long binoculars for hunting. Model with 10x42 parameters, including resolution, good contrast and compact dimensions. It works best in day conditions, it gives images more detailed than a model with 8x magnification. â€¢ ED optics - perfect chromatic aberration correction â€¢ Wide-angle optical design with a full flat field of view â€¢ BaK-4 roof prisms with silver coatings â€¢ Quick, central diopter adjustment

The carefully selected high-quality glass grades and the newly designed optical system make the Chase series binoculars offer image quality much better than for binoculars in a similar price class. All binoculars in this series were built based on lenses made of low-dispersion ED glass. Such lenses guarantee a low level of chromatic aberration while maintaining moderate dimensions. Binoculars have a large field of view, corrected to a much greater extent than in previously produced models. The whole structure is made in a roof system with an internal focusing system. The body is very durable and of course completely watertight. Chase series binoculars will provide an image with very high detail and rich colors, allowing you to see details unnoticeable in binoculars of lower quality. Technical parameters â€¢ magnification [x]: 10 â€¢ Lens diameter [mm]: 42 â€¢ linear field of view per 100 m [m]: 112 â€¢ Twilight efficiency: 20.5 â€¢ Relative brightness: 18 â€¢ minimum distance of acute vision: 2 m â€¢ lenses: elements of low dispersion glass ED (Extra-Low Dispersion) â€¢ wide-angle eyepieces, LER (Long Eye Relief), field of view of 62-64 degrees â€¢ field correction equalizer: YES (Field Flattener) â€¢ prisms: roof, Schmidt-Pechan â€¢ prism material: BaK-4 â€¢ prism coatings: silver, enhanced (Enhanced Silver Coatings) â€¢ lens coatings: FMC (Fully-Multi-Coated) â€¢ focusing: central, internal â€¢ Diopter adjustment: central, internal, regulation of the right track â€¢ nitrogen filling: YES â€¢ dimensions (length x width x height) [mm]: 138 x 128 x 50 â€¢ weight [g]: 730 Warranty 10 years
