

teleskopy.pl

The Celestron Powerseeker 50 Table Top telescope allows for terrestrial observations with magnifications from 30 to 150x, as well as the first steps in observations of the Moon and planets. The diameter of the lens is 50 mm, and the focal length is 600 mm. Includes a 90 degree angled connector and a table stand. You do not need any tools to start the observation. In also a rigid case for storage and transport. Technical parameters

- Optical system: refractor (achromatic doublet)
- Lens diameter: 50 mm
- Focal length of the lens: 600 mm
- Magnification in the set: 30x, 50, 100x and 150x
- Maximum useful magnification: 100x (in astronomy)
- Eyeglass extractor: 0.965 "/ 24.5 mm
- Finder: 3x20
- Mounting type: azimuth, table
- Weight: 1.7 kg
