

Underwater case PolarPro FiftyFifty - Over / Under Dome designed for GoPro Hero 5 Black cameras is a dome housing that allows you to perform unusual, unreachable shots. Thanks to the special dome, half of the frame can be above and half below the water. From the moment of its application, films and photos will be eye-catching, and every viewer will think about "how it is done". The set includes a housing, a buoyancy holder, a leash and a neoprene cover. Technical parameters – compatibility: GoPro Hero5 Black – maximum depth of work: the one on which the GoPro Hero5 camera (ie 11 meters) allows; the product is mainly intended for shooting at the water surface Warranty 24 months
