Bushnell has a range of high-quality rangefinders. A great offer for everyone who appreciates the convenience, professionalism and weight of the used product. In addition to golf courses, the rangefinder will be widely used in hunting, sport shooting, fishing, mountain expeditions, but also in field measurements, for example in the assessment of damage caused by game on crop fields. Rangefinder Bushnell Tour Z6 Jolt Golf is a popular and very handy model for fast and effective measurement. Equipped with scan mode and waterproof. The rangefinder has the ability to measure the distance both in the metric system and in the yards. Changing the measurement system is done with a single button located on the body of the device. Technologies used

- PinSeeker : a technology specifically designed for golfers. It allows you to more accurately measure the distance to the flag, which, especially from a large distance, even at a larger size is only a small point. Because of this, the distance to the background - shrubs, trees etc. is often obtained instead of the distance to the flag in normal mode. The PinSeeker mode eliminates these problems and makes the device look for objects closer to the eye in the first place - so the flag captures among background objects, even if it is very narrow.
- FMC (Fully Multi-Coated): all air-to-glass surfaces have been repeatedly coated with anti-reflective coatings, thus minimizing unwanted reflection and light loss through the optical system.
- Vivid Display Technology - VDT : technology that facilitates the reading of the measured target in difficult lighting conditions.
- FSP 2 : a technology that provides

faster and more accurate measurement. Technical data ~~â€¢~~ magnification: 6x ~~â€¢~~ Lens diameter: 21 mm ~~â€¢~~ Excavation: 3.5 mm ~~â€¢~~ scope of measurement: - maximum range: 1188 m - tree: 640 m - flag: 450 m ~~â€¢~~ measurement accuracy (m): +/- 1 ~~â€¢~~ field of view (m / 1000 m): 119 ~~â€¢~~ distance from the eye: 16 mm ~~â€¢~~ power supply: 3 V battery ~~â€¢~~ weight: 200 g ~~â€¢~~ producer: Bushnell, USA
