Fotopro uFO 2 is a lightweight and versatile tripod designed to work with smartphones, sport cameras and small cameras. Its advantages will be particularly appreciated by travelers, vloggers and sportsmen. The uFO 2 tripod, despite its small dimensions, offers many possibilities and applications. Its flexible, rubber-coated, non-slip plastic feet allow the camera to be mounted almost anywhere. Built-in ball head allows you to quickly set the desired frame. The tripod is made of the highest quality plastics, ensuring durability and low weight. The Fotopro uFO 2 is equipped with a standard 1/4 "male stand mount, compatible with most cameras and cameras, as well as a mount adapter for the GoPro system and a telephone holder.
