Binoculars Focus Handy 8x32 is a classic, very well made binoculars for daily hunting and for nature observation (birds, animals). The waterproof, nitrogen-filled, shock-resistant rubber structure ensures high durability for years. The ribbed casing ensures a secure grip even when wearing gloves. BaK-4 glass prisms and very good MC layers on glass-air

---

surfaces guarantee very good optical performance - high transmission of light and accurate color reproduction.

Additional advantages of the Pentaflex 8x32 Cazorla Jager 2 binoculars are extremely compact, the focus range from 2 meters and the large retraction of the exit pupil, equal to 17.5 mm - especially important for people wearing prescription glasses. Includes: neck strap, lens covers and glasses, soft cloth to clean the optics, belt case. Technical parameters
