

teleskopy.pl

Meade Adventure Scope 80 is a combination of good observation capabilities with fantastically compact dimensions. This is the largest "backpacking" telescope in our range - it has a diameter of 80 mm, unparalleled among telescopes with such a mobility. Ideal equipment for trips, both as an astronomical telescope and as an efficient observation telescope. Includes a tube with a finder, an eyepiece, two glasses, a lightweight aluminum stand and a backpack that holds the whole set. Technical parameters

- optical design: achromatic refractor
- Lens diameter: 80 mm
- focal length of the lens: 400 mm
- luminous: f / 5
- optics: MC
- eyepiece: rack and pinion 1,25 "
- assembly: aluminum photographic azimuth
- height of the tripod: 44 - 110 cm (adjustable)
- finder: red dot
- Angle connector: 90 ° 1,25 ", gives a terrestrial image
- glasses in the set: H18 mm and H6 mm, 1.25 "
- magnification in the standard set: 22x and 67x
- maximum useful magnification: 160x
- length of the tube: 40 cm
- the weight of a folded telescope: about 2.3 kg
