

Increase the range of the viewfinder 5 times. The FireField Booster / Magnifier increases magnification 5 times compared to the original viewfinder magnification. This improves the recognition of the target and the precision of the shot. He works with colleges Aimpoint and EOTech

Technical parameters

- magnification: 5x
- Lens diameter: 29 mm
- eyepiece diameter: 35 mm
- Blow diameter: 5.8 mm
- offset of the exit dust: 50 mm
- field of view: 6 ° / 10,5 100 m
- dioptic regulation: +/- 3 D
- parallax setting: 50 yards
- optics: glass, with green AR coating
- water resistance: yes, IPX6
- nitrogen filling: yes
- shock resistance: yes
- maximum recoil: 800 G
- housing: aluminum
- Tube diameter: 30 mm
- assembly: Weaver
- finish / color: matt black
- dimensions: 129 x 40.6 x 40.6 mm
- weight: 207 g (290 g with attachment)

Warranty 3 years
