

Sightmark ReadyFire G5 is a laser pistol mounted on a weaver / picatinny rail. It allows very fast aiming thanks to the visible beam of the green laser. Laser range is about 40 meters in daytime conditions and over 500 meters in night conditions. Lightweight and compact design only slightly higher weight of the set and ensures high compatibility with various units. ReadyFire G5 is powered by one CR2 battery and works in two modes - continuous and pulsed, the latter with up to 15 hours of operation without changing the power supply. The laser switch is on both sides of the device, so it can be operated just as comfortably by right and left-handed shooters. The viewfinder operates in a wide range of temperatures: from -18 ° to + 50 ° C and is characterized by IPX4 integrity. Technical parameters

- wavelength: $\lambda = 532$ nm
- laser class: IIIa
- output power: <5 mW
- size of the spot: about 7.5 cm by 50 yd / 40 m
- the range of visibility at night: around 550 m / 600 yd
- working modes: 2, continuous and pulsating
- power supply: CR2 3 V
- working time: 10 h (permanent mode) / 15 h (pulsating)
- resistant to recoil: 1000 g
- adjustment of the position of the spot: continuous
- height adjustment range: 420 MOA
- airflow adjustment range: 140 MOA
- body: aluminum
- IP class: IPX4 (splash proof)
- nitrogen filling: yes
- mount: Weaver / Picatinny
- length: 64 mm
- width: 37 mm
- weight: 100 g

Warranty 2 years shop warranty, 10 years manufacturer's warranty
