

# teleskopy.pl

The FireField 2.5-10x40 optical viewfinder with a built-in red laser sight and a netted backlight in green and red. The most important features

- magnification from 2.5 to 10x
- 40 mm lens
- built-in red 5 mW laser
- precipitation compensation for .223 in the 100-500 yards range
- Mil-Dot grid with red and green backlight
- precise airflow and rainfall settings
- construction resistant to shock, rain and moisture

Technical parameters

- magnification from 2.5 to 10x
- Lens diameter: 40 mm
- shade of the eye: 69 - 50 mm
- The exit pupil diameter: 13.3 - 4.4 mm
- field of view: 11.6 - 3.8 m / 100 m
- dioptic regulation: +/- 3 D
- parallax set: 100 yards (yd)
- airflow adjustment range: 90 MOA
- fall control range: 90 MOA
- single click: 1/4 MOA
- grid: Mil-Dot, backlit (0-5), in the second plan
- power supply: 3 V CR2032
- body: aluminum
- optics: glass
- coatings: FMC, green
- resistance to recoil: 1000 G
- IP standard: IP67
- assembly: Weaver
- dimensions: 215 x 89 x 80 mm
- weight: 750 g
- Warranty: 24 months
