FOTOGRAFOWANIE POLSKIEJ PRZYRODY

Wydawnictwo ARKADY

POLISH NATURE PHOTOGRAPHING guide is addressed to everyone who values nature and likes photography, regardless of the level of nature knowledge and photographic experience. Its purpose is to present the most interesting and having the greatest photographic potential phenomena of Polish nature: astronomical objects - atmospheric phenomena, landscape appearances (states), objects of inanimate nature, natural habitats - and species of plants, fungi and animals in their most interesting stages of life. Additional information Publisher: Arkady ISBN: 978-83-213-4977-0 Release year: 2018 Author: Grzegorz Bobrowicz Format: 14.5 x 20.5 Pages: 368 Binding: integrated
