Flux is a strong star projector - in our opinion number 1 on the market! Imagine observing the starry sky from your sofa. That's what Sega Toys planetariums offer. Flux is the newest and most advanced product. Beautifully, carefully finished, with excellent glass optics and a very bright LED light source of the projector make it a product that will satisfy the most demanding user. The most important changes - 5 W LED - greater brightness and higher visibility - advanced optical system ensures excellent reproduction of the projected image - planetarium rotation is very quiet - USB powered - use at home or anywhere you want when using a power bank - precise focus setting knob - quasi-random shooting star - beautiful packaging - over 30 optional drives with brand new themes. Main features - an image of up to 60,000 stars on a ceiling or wall - wide range of projection distance, from 140 to 270 cm - diameter of the projected image up to 270 cm - included: Sega Toys Flux planetarium, two removable drives, USB cable, mains plug, elegant gift box - projector dimensions: 16 x 16 x 15 cm - projector weight: 620 g - dimensions of the gift box: 19 x 19 x 23 cm - weight of the gift box: 1680 g. Warranty 24 months
