

The Levenhuk LabZZ C3 container for insect observation is a small, transparent container with a magnifying glass magnifying 5x in the lid. You can put an insect in the container to observe its behavior, or fill the container with water and place a tadpole or small fish in it. Thanks to the Levenhuk LabZZ C3 container, even a simple walk can turn into an exciting adventure! Of course, you can also put other objects into the container: from a leaf or moss to various rocks or pebbles, which can also be an interesting natural experience. The container, lid and lens are made of plastic. The kit comes with a neck strap and plastic tweezers. Technical parameters ∅ magnification: 5x ∅ lens diameter: 38 mm ∅ materials: acrylic, plastic ∅ tweezers and strap included Warranty 2-year shop warranty, lifetime manufacturer's warranty
