Multifunctional chimney - with a map of the sky! The perfect solution for active people for every season. You can use it at any time of the year both for outdoor sports, running, cycling, hiking and climbing or as part of your everyday wardrobe. You can easily make a hat, headband, mask or balaclava from a scarf, it can also be used as a scarf or decorative scarf. It protects both in summer - against the sun and in winter against wind and cold. Made of microfiber with exceptional thermoactive properties. Hydrophilic finish - moisture accumulated as sweat is quickly absorbed by the fabric in contact with the skin and distributed over a large area. Sweat drops are absorbed by the fabric in just 2 seconds and spread to the surface several times larger than the drop. A fabric without this finish needs over 30 seconds to absorb a drop of sweat. The warmth of the human body means that sweat is quickly evaporated from clothing over a large area. Human skin stays dry despite heavy physical exertion and higher temperature. Steam permeable function - the product is breathable and breathable. Sweat from the skin is easily transported from inside to outside. The difference in temperature and relative humidity between the body and the fabric and the fabric and the external conditions have a

decisive influence on these properties. Seamless - seamless tubular material ensures maximum comfort for your skin.
Safe - the components used for production (yarn and dyes) are certified by Oeko-Tex Standard 100 / Eco Passport.
Safe for the environment and humans, including babies.
