The Vortex Diamondback 8x28 is a development of the Diamondback series binoculars towards small dimensions. Binoculars of this series are valued for smart mechanical solutions, great optics and waterproof construction, now they will be praiseworthy for the wonderful shapeliness. Small is beautiful! Characteristics

- lenses for increased light transmission
- roof-type prisms with phase coatings
- the seal provides water resistance and prevents dust from entering the binoculars' interior
- nitrogen filling prevents fogging of the optics inside the binoculars
- improved rubberized non-slip surface provides a good grip
- adjustable protrusion of eyecups allows you to adjust their location to our needs, and thus more convenient observation
- central focusing allows it to be adjusted simultaneously in both glasses
- diopter correction on the right eyepiece

Technical parameters

- magnification: 8x
- lens diameter: 28 mm
- exit pupil diameter: 3.5 mm
- minimum focusing distance: 4 m
- angular field of view: 6.2 °
- linear field of view: 108 m / 1000 m
- exit pupil offset: 18 mm
- twilight efficiency: 15
- eyecups: retractable
- eyepiece spacing: 55 - 74 mm
- water resistance: yes
- gas filling: yes, nitrogen
- roof prisms, BaK-4, phase-coated
- lens coatings: FMC
- tripod connection option: yes (tripod adapter required)
- lifetime VIP guarantee: yes
- height x width: 112 x 117 mm
- weight: 397 g

Warranty Lifetime warranty: if anything happens to your binoculars, Vortex will repair or replace it with a brand new one. * The warranty does not cover the loss, theft or intentional destruction of the binoculars. Elements of the set

- binoculars
- case
- neck strap
- optics cleaning cloth
- documentation
