Parameters known from the HERO camera. The magic of spherical recordings. Perfect image stabilization. This is MAX - the most creative GoPro camera ever. It allows you to record standard movies and photos, as in other GoPro cameras, as well as in 360 °. You can take a panoramic photo without moving the lens - all you have to do is aim and click. Digital lenses allow you to record material exactly as you imagine. Six built-in microphones record the best quality spherical sound in the history of our products.
