

Fully coated with layers of MC symmetrical TPL Super Ploessla eyepiece of good quality. Aluminum luminaire, purely glass optics, filter thread on the side of the spectacle extractor. A very good eyepiece for getting small magnifications, ie for viewing the sky, for observing nebulae and - in telescopes for that purpose - for observing terrain and planes. Technical parameters ∅ Focal length: 30 mm ∅ Field of view: 50 ° ∅ Diameter of binding: 1.25 inches Warranty 2 years (PL S500 glasses - series)
